Team building and leadership skills to motivate and mentor in-house group through engaging and effective management. Driven and knowledgeable in popular design and marketing software with strong analytical and critical thinking skills to properly and effectively multitask while meeting deadlines.

Education

Diploma in Engineering , Chapai Nawabganj Polytechnic Institute - Chapai Nawabganj

March 2023 - Present

Projects

AI Chatbot for Task Automation, AI / Automation - Python, API Integration, Prompt Engineering, Automation Scripts

November 2025 - January 2025

- Created an AI-based chatbot to automate repetitive tasks and answer user queries. Utilized Python for scripting, API integration for external services, and prompt engineering to improve chatbot responses. Designed it for practical workflow automation.

Blood Donation Club Website, Web Development (Full Stack) - HTML, CSS, JavaScript, Python (Django), Database Integration, Responsive Design

January 2024 - April 2025

- Developed a responsive and interactive website for a social service and blood donation club. Implemented front-end design with HTML, CSS, and JavaScript, and built back-end functionalities using Python (Django). Integrated database features for managing member data and blood donation records.
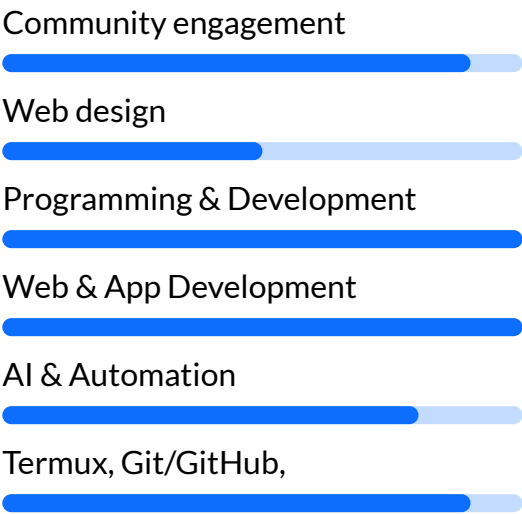

Student Mess Management System, Software Development / Academic Project - Python, SQLite/MySQL, CRUD Operations, GUI Design

January 2025 - December 2025

- Developed a software solution to manage daily operations of a student mess. Features include meal scheduling, resource tracking, and reporting. Built using Python and SQLite/MySQL with a user-friendly GUI for easy operation.
